

ANNOUNCEMENTS

SMLD to celebrate 100 years with larger rebates

The Sterling Municipal Light Department is proud to announce it will soon celebrate the 100th year anniversary of its formation in 2010. It is a time for commemoration and inspiration.

During the upcoming year, the SMLD will be offering larger rebate amounts and at least two additional offerings for the Energy Star Rebate Program in 2010. Consumers will continue to save for years to come, because energy-efficient appliances consume less electricity than standard models. Please visit the SMLD's website, www.energysterling.com, or call the customer service department to obtain the 2010 Energy Star mail-in appliance rebate form.

If you are thinking about making home energy modifications in your

home, note that the SMLD will also be offering rebates to customers for insulation projects for their existing homes. The SMLD offers these rebates to encourage customers to conserve energy and to maintain heat in a home for a longer period in the event an emergency disaster hits again. Please visit the SMLD website or call the customer service department to find out if your home qualifies for an insulation rebate.

For more information on these upcoming programs, call customer service at 978-422-8267.
